Compact 10 HD with Speech

Handheld Electronic Magnifier

The **Compact 10 HD Speech** offers all benefits of a desktop video magnifier, but in a much smaller, foldable, and portable design.

The **Compact 10 HD Speech** is an ideal solution to magnify and read newspapers, letters, and magazines. But, its **unique swing-out arm** opens a whole new range of possibilities. It effortlessly captures full-page documents and reads them to you. The convenient indicator at the foot of the Compact 10 HD Speech tells you exactly where to place the document you want to read. Just place the document, take a snapshot, and relax while the Compact 10 HD Speech reads text to you.

With the arm unfolded, you can also easily look at photos, view medicine packaging, and read round cans, without being restricted in your movements. The arm even allows you to write your signature and finish crossword puzzles.

About the Compact 10 HD with Speech

- 10-inch HD touchscreen
- Full colour & selectable false colours for easier reading
- Text-to-Speech: listen as the Compact 10 HD Speech reads full pages of text to you
- Convenient indicator that helps you align full page documents perfectly below the swing-out camera
