Looky 10

Handheld Video Magnifier

High-Definition Magnification with large screen & reading stand

Incorporating a superb 10.1" display, the Looky 10 produces crystal clear Full HD (1080p) images.

The Looky 10 is the ideal 2 in 1 Magnifier that bridges the gap between the smaller screen portable devices and the larger fixed screen desktop systems in one portable package.

Read signs at coffee counters and other such tasks with the distance view feature. Examine photos or reading materials with the close view feature. And even do your hair or makeup with the mirror/self view camera that faces you.

About the Looky 10

- 10 inch full HD display
- 1080p full HD image resolution for reading and distance
- Magnification of 2.5x to 18x
- Close view, distance view and even mirror/self view
- Live panning – explore live, zoomed images without moving the device
- Connects to a TV for larger viewing
- Photo mode and 18 high contrast modes
- Tactile, high-contrast controls to make it easy to use
- Continuous use up to 3 hours - user rechargeable battery
- Fold-out, integrated stand provides a proper angle for reading and writing
